Lighting - the kitchen is a workplace, therefore a good lighting of a worktop is important. You can for example, use a bright halogen and LED lights, placed under the cabinets.

Handles - their colour, shape and finish can create the definitive look of the kitchen. They can play first fiddle, emphasize divisions or discreetly accompany the surfaces of fronts. Properly selected handles will decorate your kitchen.

Decorative mouldings - colours of crown mouldings in the same colours as the fronts, length 2.44 m and 2.7 m (ask the shop assistant for details).
